Go to the activation tab and activate the Autodesk Autocad License Key Insert the key and press activate. Go to the folder tools -> Autodesk -> Options -> Licenses and select your Autocad 2017 download. Launch Autocad and install from there. You can open the app by using the custom template. Change theme (needs last Autocad 2018 version) Make sure you're on the version 2018. Save it to your computer. Start Autocad. Go to File -> Options -> Preferences (Advanced) -> Themes -> Autocad Theme. Go to your desktop and find the cgt file (theme folder). Rename the cgt file to autocad_themes_2018_2018.cgt. Rename the cgt file to autocad_themes_2018_2019.cgt. Save it. Restart Autocad. If you are still having issues with the theme try changing the theme name. I hope this will work for you. It worked for me. Thanks! Note: If you have issues or did not get it to work, please create a support ticket. Also, the release notes for Autocad 2018 mention that the 2018 version has a new runtime. This runtime uses a new way of reading the license key and initializing the runtime. The runtime reads the license key from the registry key HKEY_LOCAL_MACHINE\SOFTWARE\Autodesk\Autocad\2018\15.0\License Instead of HKEY_CURRENT_USER\Software\Autodesk\Autocad\2018\15.0\License I have found that HKEY_LOCAL_MACHINE\Software\Autodesk\Autocad\2018\15.0\License will always be present and is read instead of HKEY_CURRENT_USER\Software\Autodesk\Autocad\2018\15.0\License The way the runtime reads the license key is different, which means you cannot use the Autocad 2018 license key with the Autocad 2018 runtime.
