### What's New in the Excel Convert Files From English To Arabic And Arabic To English Software?

As you might have guessed, Excel Convert Files From English To Arabic and Arabic To English Software is a great program that allows you to convert Microsoft Excel files from English into Arabic and from Arabic into English. This tool has made it possible to view any type of Excel file without the need for additional conversion programs. In addition to that, the software is compatible with both 32-bit and 64-bit environments. You should know, however, that the database will not be automatically saved if you use the Arabic version of the program. In order to maintain the settings you made, use the included configuration utility. The program was designed to make it as simple as possible to convert Excel files and has been created using the English GUI. When you first launch the software, it will ask you if you want to create an installation folder. If you choose the first option, it will create a default folder in your system. If you select the second option, you will have the chance to select the location of your installation folder manually. After you have selected the location of the folder, the application will automatically create the installation folder for you. You will then be presented with the main interface for the application. You can select the conversion option and then select the document that you want to convert.
