

SCRAP Photo Editor is a light and easy to use application that allows you to quickly perform modifications to your image files. Intuitive interface Although the chromatic theme of the program cannot be personalized, you can resize the main window of the application as much as you wish, allowing you to expand your workspace and get a better visual overview of the on-going project. The menus and buttons of the application are neatly disposed in the upper side of the main window, allowing you to quickly find and access the feature you need. The shortcut icons are lively-colored and intuitive, so you can easily identify the feature you need to access without spending time reading the tooltips. Great overview The zoom functions SCRAP Photo Editor features allow you to easily view the image from the perfect standpoint. The application comes with a few included zoom presets, ranging from 10 percent of the original size up to 400 percent of the image, but you can also view your project perfectly fit to the window's size or in its original dimensions. Quick editing In order to start cropping your image, all you have to do is toggle on the crop function, and then you can select an area to be processed. This area can be easily redefined by dragging the corners and margins until you have the perfect rectangle, which will be highlighted so you can view the exact area you have selected. When you toggle on the rotation function, a handle will be displayed on your project so you can drag it in order to rotate the image. Scaling the image can be done directly to set parameters for e-mail, social sharing or fit for HD screens, or it can be done to custom specifications. Reliable photo editor Although the program has few editing functions, the ones that it features are easy to use and efficient, proving that SCRAP Photo Editor is a comprehensible and accessible photo editing solution designed to be operated even by the inexperienced users.Q: No padding in for fixed header I can't seem to find a way to add padding to the header. .header { height:100px; background-color:yellow; padding-top:20px; position:fixed; z-index:10; top:0; left:0; } This
