### What's New In?

Description: The THETA UVC BLENDER (Universal Video Converter) is a lightweight software utility designed for Windows-based PCs that helps you use your THETA camcorder with any program that supports live streaming. The THETA UVC BLENDER also provides you with a simple interface for registering your THETA S or THETA m15 camera and enables you to perform live video streams of real-time pictures and video, for instant recording and sharing. Cautions: 1. If your camcorder is a THETA Z1, THETA Z1 M (with a USB port) or THETA Z1R model, the application will not be able to use this camcorder if it is not connected to the computer or is not detected by the software. 2. Some functions may not work correctly if you are using

a version of Windows earlier than Vista, for example, if you are using Windows XP or Windows 2000. Advertisement Effortless installation Setting up this utility on your computer can be accomplished without great efforts since no additional configuration is required on your part. You just need to specify the installation path on your computer and follow the on-screen instructions provided by the installer. Register your device Before you can make use of THETA UVC BLENDER's capabilities, you need to register your device so that it can be recognized by your computer. After installation, you are automatically prompted to perform this action. You can accomplish this task via the wizard-like menu displayed on your screen after the installation has finished. The wizard provides you with step-by-step instructions to simplify your task and also offers you graphical examples of the operation, to help you understand better. Live stream with your THETA cam THETA UVC BLENDER enables you to perform live streams with your THETA S or THETA m15 devices in a convenient way. After installing this utility and setting up the device on your computer, you can use it with any application that supports live streaming (e.g. Windows Media Player). However, you should be careful when choosing the input device not to select the actual THETA camera, but THETA UVC BLENDER, since the former cannot perform live streams. Enable live streaming support for your THETA S or THETA m15 devices All things considered, THETA UVC BLENDER is a lightweight application that can help you activate live streaming support for your THETA S or THETA m15 cameras with ease. It can be easily installed on your computer, features a wizard-like interface for registering your device and requires no additional configuration.
