swishmax5software I don't know about you, but we have the opportunity to buy any book on the Internet. And books from the publishing house "AST". At least for now. This publishing house produces many books by different authors in the same style. I don't read sports books, for example. But sometimes I buy detective stories or some science fiction. True, lately there are only detectives and come across. But I'm not complaining, I have enough. How do you like this book format? You can buy it all in one bookstore.
