This happened after i copied the.nsf files to server. It is also due to the problem of duplication of the.nsf. Updating all.nsf files in the Notes folder of the installation drive caused the error "BizTalk" update failed" which is just the beginning of the error caused in the installation. Can you suggest me any way to solve this issue? Can you direct me to a doc. A: After reading a lot of forums and other information i found that Lotus Notes has to be installed into the profile folder. The system creates c:\users\userprofile\AppData\local\Lotus\Notes\data' in the users profile as expected. If this folder already exists then update the whole notes folder using your installation disk. In case the folder is not present in the user profile, then you have to create the folder using the administrator as mentioned below. Run-o support While Americans are increasingly likely to call marijuana a gateway drug that leads to violence, our youth and drug courts are overwhelmingly focusing on addiction as the cause of problem. Budgets for drug courts are expanding in Colorado, Florida, and New Jersey, with governors pursuing a national initiative. Critics of drug courts say a dizzying array of conditions can serve as grounds for drug treatment. The list includes including a dropped paycheck, debt from gaming machines, or a lack of a vehicle. In some states, these non-specific grounds remain in a single court, with the court making the split decision of whether to sentence to treatment or jail. Even fewer numbers address substance abuse as a cause of violence, or the impact of addiction on individuals. "We treat all kinds of offenses. We don't have our own court just for the drug court. There are people who come in with misdemeanor drug possession; there's not just drug court. The drug court is just one part of the decision process. But the vast majority of drug offenders are also involved in a criminal element," said Anthony Kearns, chief criminal justice officer of the American Addiction Centers, an addiction treatment provider. The vast majority of people who attend a drug court are addicted to a drug. The so-called gateway drug offenders are a minority. There are, however, evidence-based drugs courts, Kearns said, that focus on the active drug use, and should be contrasted with a broader
