Call Of War: World Conqueror Pack Features Key:

Collect arcade medals
6 levels of increasing difficulty
Awaken 7 spirits
10 unique waveforms and 7 bonus waveforms

Acquire the treasure chest to awaken a spirit. Look to the five pool tiles for the waveform you need to awaken in that part of the puzzle. To get bonus waveforms, use it against other spirits. Bonus waveforms are only given in relation to how much stone you used on the enemy spirit.

Waveform rules:

- Collect the spirits above a pool tile to activate it. Play the lowest valued waveform on a tile to awaken a spirit and the bonus waveforms.
- If a spirit is worth more than the highest valued waveform on the board, change to the next highest valued waveform in the spirit's direction to awaken it.

Acquiring spirits: The 6 abilities for each spirit are listed in a table below. You need to equip at least 1 ability for the spirit to be acquired.
