I have used it on my hair for 4 years now and it's just keeps it super soft! I love the fact that it's a sulfate free conditioner so my hair doesn't dry out or feel sticky after I wash it. This hair conditioner is good. It can make your hair feel softer when it's dry and seems to work for the short term. It had light citrus and honey scents and it smelled very good. FIFA (from FIFA isometric football) is a popular football (soccer) video game series published by Electronic Arts. FIFA is the most played sports video game and also the top selling sports video game series in the world. FIFA debuted in September 1993 for the SNES. Since then, more than 30 million copies of FIFA games have been sold. Gameplay FIFA is divided

---

into two major components: play and careers. As you play on the field of play, you can play as either a goalkeeper, defender, or midfielder, or you can select any position (i.e. a winger or striker) at the press of a button. Your player will receive instructions through a set of in-game menus depending on which position you select. Once the gameplay part of the game is over, you can create a custom league which will affect which positions you can select. In the career mode, you can create a custom league at the beginning of each mode. Gameplay Modes FIFA is built on a modular design. There are

---

five main modes in FIFA. The first four modes are the same in all consoles, but they are just called FIFA for each one. The fifth mode is different for each console. FIFA: FIFA is the core gameplay mode. It includes all the existing modes except for 'FIFA 365.' It also includes a revamped franchise mode that offers year-round game updates. FIFA Ultimate Team: FIFA Ultimate Team is the mode that keeps players coming back for more. It is a matchmaking mode that brings together real-world players in the same digital soccer league. Players create their own custom teams, trade with each other, fight opponents, and

---

score ridiculous goals.

Seasons: Seasons gives players more control over the seasons. Each season includes a 'new' yearly update that adds new items, gameplay enhancements, new settings and rules, and even better soccer. Also, players can create their own custom seasons in the career mode.

Pro Clubs: Pro Clubs gives players more control over the leagues they play in. Players can choose a club to play for and the league will be permanently associated with the club. Players can also change clubs by playing the games of other clubs. Players can also create their own custom leagues.
