The FATE OF THE ELDEN. A powerful magic in the far-off past has disappeared from the land of the living. History will write a tale of a great struggle that began as the gods sought to protect the holy lands of life from a demon horde. A great hero emerged, and the lands of the living grew more vivid and beautiful in time. They laid claim to the power of the West, and mounted a crusade for a new realm. They faced a dark lord, a demon, but the god-gifted hero forged an alliance and defeated him.

The land was granted to the god-gifted hero, who was elevated to godhood. His Divine Thunder connected the three dimensions and healed the sun. The god-gifted hero and his companions who fought alongside him became gods, and a legend was born. This legend came to be known as "the Elden Ring Cracked Accounts."
