"Charming characters, charming story, charming gameplay." "A new action RPG is being released, where players can participate in asynchronous online play. In order to play, you need to create a character, thereby having fun with the world through the eyes of a new character. However, there is a problem. A great deal of false information is being spread. Let's correct it together." "Once you have played this game, it will be your favorite. It has the most exciting battle. In addition, the mysteries of the Lands Between and the story about a twisted world were portrayed well." "This game consists of the two key elements of games: the battle and the story. In the battle, you fight monsters and appear as an adventurer. The story, on the other hand, is about a great battle between good and evil. These two elements come together in a unique campaign, making an enjoyable experience for all players. I recommend this game to those who like action RPGs." "Unlike other action RPGs, it has a special mechanic. During battle, actions are judged on a value and lead to changes. For example, it is possible to increase your health when getting hit by an attack. There are many interesting things. However, the interface is not good. It's like you are playing online, but you cannot join others." "If you love the strategy genre, I would strongly recommend you to try this game. It has a very unique design. I have played it for a long time, and it was an enjoyable experience. Thank you." "It has a very fun action RPG design. And you can all participate as allies in the world." "It has many characters and they are very charismatic. In particular, there are many girls who would be a big problem if I were to play it. They are all unique." "As you can see, the battle is the main attraction. In addition, I hope you enjoy the unique RPG nature and the story about a twisted world." "I played many RPG games in the past, but this game is really something special. The quest is fun, and the battles are also fun. In addition, the new content is also very nice." "The characters are well-developed. The story was very interesting, and the battle was exhilarating. Unlike other action RPGs, the action is very detailed and unique." " bff6bb2d33
