■ MAIN FEATURES ▼

■ The Story of Guallen, Elden Lord Over the course of nearly four thousand years, the long-lost continent of Elden has been known only through rumors and hypotheses. A landscape of lush bluish flowers, surrounded by a sea of milk-white liquid, is all that remains of this legendary continent. Even the stories told by those left on the island of Kaltion of how Elden once existed are all that remains before the great upheavals in history. Despite this, the continent of Elden remains the Land Between, a vast paradise full of glory where the legend of an age lost in time resonates. \par It is said that many powerful monsters called Eldenlies infest the land within the Land Between, hunting for prey. A tattered shadow lingers over the Elden Ring, which is described in a legend of a legendary age, and ruffians roam the lands with many rumors about the ring. The mythological story of Elden changes as the story of Tarnished, Guallen, and the others unfolds. What is waiting as you traverse the Lands Between?

I first proposed the premise to Daniel: "What if, instead of a "Hero's Story" we had a tale where the PCs were dragged into an adventure by NPCs they didn't even know?" Daniel found the idea intriguing and replied "I find that "Hero's Story" is kind of cheesy - it's a retread of the mundane for the mundane, which makes it boring to me. I think I want to do something more unusual where a familiar-yet-unfamiliar force comes into play and my players are left to figure out how they can act." He proceeded to explain his vision of such an unusual story, which as of now I've handily summarized below. > The idea for The First Tearing Dawn came out of a conversation we had in 2011, where bff6bb2d33
