Modern Combat is an action 3rd person shooter based on missions. You have to go through all of the duties in order to help the local soldiers on a journey to clear out the area from terrorists! Situation on the Middle East has done from bad to worse. The regime army can hold terrorists back no more and they desperately need help. You are playing as a strong force of our Special H.E.N.T.A.I. Service. Your target is to go through all of the missions in order to help the regime army fight back the terrorists and save the area. FEATURES: Realistic battle experience in a hot zone Advanced shooting and ballistics Campaign mode Become a part of our Special H.E.N.T.A.I. Service and help anime girls save the world! ADD THE GAME TO YOUR STEAM WISHLIST

Q: How to compute the maximum of these inequalities? Assume  $s > 0$  is fixed and that  $\alpha_1, \alpha_2, \alpha_3, \dots, \alpha_n > 0$  and  $\beta_1, \beta_2, \beta_3, \dots, \beta_m > 0$  and  $\sum_{i=1}^n \alpha_i = 1$  and  $\sum_{j=1}^m \beta_j = 1$ . Now, I want to maximize  $\alpha_1 \beta_1 + \alpha_2 \beta_2 + \alpha_3 \beta_3 + \dots + \alpha_n \beta_n$  subject to  $\alpha_1 + \alpha_2 + \alpha_3 + \dots + \alpha_n = 1 - s$  for some  $s > 0$ . In other words, how can I compute the maximum of  $\alpha_1 \beta_1 + \alpha_2 \beta_2 + \alpha_3 \beta_3 + \dots + \alpha_n \beta_n$

## Features Key:

Single and multiplayer  
Lame GameCreation Tools

## Control Type:

- Advanced driver control
- X-Box 360 Controller: Made to fit the mapping. Drag the joysticks on the map to positions you want to control it
- Playstation Controller.

## Gametype

Adventure

## How to Play:

- Campaign Mode: Start and control your ship and go through the levels
- Tutorial Mode: Follow a time-table to pass each stage
- Co-pilot Mode: Play with other players simultaneously
- Race Mode: Go through the levels competing against others

## Course:

## Demos:

A downloadable content available from the patch, just look for the file named "demo".

## Game Modding:

---

There are three files that can be edited in the same way that any game file is:

- Ship.txt - for NPC's
- Map.txt - for Ship's positions
- Sprite.txt - for Ship's images
