vom FC Ingolstadt 04: Der BVB ging gestern auf das US-Amerikas-Spiel bei der MLS-Saison zu. Der Youngster Marcel Dzwierzynski kam dem DFB-Sportdienst frei und wird zum Testspiel am kommenden Montag (21.45 Uhr/Sky) in Washington den FC Ingolstadt 04 treffen. "Ich möchte meine Mitspieler und meine Fans dazu beglückwünschen, dass ich in die Nationalmannschaft gekommen bin", sagt Dzwierzynski im Nachhinein zu BILD, "der BVB hat mir alles gegeben und wir waren die besten Freunde. Ich freue mich sehr, dort zu spielen und es gibt für mich sowohl beim BVB als auch bei der Mannschaft Bedarf." Der 20-Jährige steht nun auf der Sechzehner-Position, erst Torschütze bei Eintracht Frankfurt und auch auf dem Platz des Spiels gegen die Atlanta United am kommenden Montag (21.45 Uhr/Sky) im neuen Stadion der MLS. Was sich auf dem Platz tatsächlich ändert? Die Kaderauswahl des aktuellen Spiels: - Marcel Dzwierzynski - Offensiver Flügelspieler - Abu Danladi - Offensiver Mittelfeldspieler - Nikola Zigic - Stürmer - Götze, Pulisic, Geiger - Offensiver Mittelfeld - Ribéry - Stürmer

- "It is an RPG with original and unique flavor brought to life through a combination of lighthearted and serious atmosphere, and the story of the game is nothing short of interesting. The player is led on a 3D open world and can choose his own path on the game's map. There are many scenarios and monsters scattered across the large area, and only the player can determine where he will travel and what he will meet in his journey. I look forward to seeing your review of this game." - "Honestly, I'm still playing this game and haven't even reached the ending yet. It is an RPG with an interesting story and just so much fun to play in areas that are made by 3D, especially with so much monsters and such a large area. Please, everyone, keep an eye out for this game. The art is wonderful, and it looks super fun in action." - "This game is a rather difficult to classify RPG; it's a western RPG, it's an action RPG, it's a side-scroller RPG, but no matter what you call it, it's different and fun to play. It's extremely high quality, having characters with different personalities, the story moves at a decent pace, and it has a unique 3D art that's worth the play." - "This is one of the most fun JRPGs I've seen this year. This game captures the essence of RPG and I'm looking forward to seeing what will happen next." - "Is a JRPG that you should definitely be paying attention to. It has great combat, hilarious and entertaining characters, and this is one of the most interesting RPGs I've seen all year. I look forward to seeing what will happen next, it's a must-play!" - "I spent the past few days with the game, but at this point, I still am not sure whether this is an old-school JRPG or a new 3D-style action game. As for combat, it has its own unique style that I enjoy, and the additional features that can be unlocked are also very enjoyable. I am very looking forward to what will happen next." - "The story is actually quite interesting, and the characters have great personalities. The gameplay is very fun to play, and the control is very smooth. The combat is really enjoyable bff6bb2d33

Q: How to retrieve the parent element of the current div? I have the following html: How can I determine the element's name using jQuery? I tried the following but it returns the element name of the current parent: `$(this).parent('div').attr('id');` // Returns the value of div#one I also tried the following but it doesn't work: `var x = $('div').attr('id');` // Returns the value of div#one A: Parent() is your friend. `alert($(this).parent().attr('id'));` The element that called jQuery will become `$(this)`. Q: Should I use '&' or '?' Do I use a question mark or an ampersand? I want to store some data, but I only want to store it once. For instance: `if (isset($_POST['submit'])) { if ($_POST['user'] == $_POST['password']) { $_SESSION['id'] =`

```
$_POST['user']; $_SESSION['user'] = $_POST['user'];  
$_SESSION['salt'] =  
crypt(md5($_SESSION['user']),md5($_SESSION['user']. "my-secret-  
salt")); header('location: index.php'); } } So the question is, can I  
get'my-secret-salt' in the following? $salt = $_SESSION['salt']; How  
can I make it so that it only stores the data once? If I use the  
ampersand (&), then that obviously stores the data, but it will store  
it twice because it's in the loop and also in  
mysqli_real_escape_string($sql, $post['password']). A: The best way  
to store data to the session is using the $_SESSION array itself. The  
disadvantage of the unset() and the $_SESSION superglobal are that  
if the session is already
