a framework to engage in useful conflicts with our enemies, but also to work with our allies and the international community in order to help create a more stable world. It is essential that American strength is used to advance the cause of peace in the world, but it is equally important that we do so in a way

that builds confidence and cooperation between our two countries. The President speaks of the need to restore dignity, respect and equality in our relationship with Mexico. I fully agree. I also agree with the President's request to this administration to focus on Middle East peace. While the President has rightly recognized the Palestinian effort at the Madrid Conference for a comprehensive solution, he has been far too supportive of the Israelis in their opposition to Palestinian rights. To sign a peace treaty with the Palestinians under these circumstances is a recipe for further strife and conflict. The only viable long-term solution to the conflict is the creation of a Palestinian state that lives in peace and justice with the Israelis. Maintaining the resolve of the Palestinian people also requires an evenhanded approach to the question of the settlements. The Prime Minister should know better than to take the lead in using the construction of Israeli settlements as a pretext for postp

What's New In DriverAgent?

DriverAgent is a lightweight software designed to check and update drivers on your PC. Main features: Detects outdated drivers. Extracts the specific information about the detected drivers and updates. Creates a restore system point or a configuration with only the basic drivers. Provides a detailed list of compatible drivers to the user. Compatible with the latest Windows version. How to update drivers automatically: Run DriverAgent and select the updates for your device (if available). The program automatically checks for the required driver updates for all the detected

devices. If the updates are available for any detected device, the corresponding dialog will be automatically opened. Simply update the drivers manually and you are done.

Welcome to the Microsoft Customer Relation website: After completing the evaluation, if the program is eligible for a refund, we will refund the amount that was paid for the program within 30 days of your request. The following conditions apply to the refund: Program installation is complete and the program is installed and launched on the indicated device, or an equivalent USB or other type of connection is made to another device after installation has been completed. The refund is not permitted when the program is only being used to test (for example, we cannot refund for any device purchased as a demo or trial version). The refund is only available for your initial purchase. A refund cannot be issued for future purchases of the same product. To request a refund, you must send an e-mail to Microsoft Customer Relations at the email

address listed in the end of the license agreement. The refund request must contain the name of the purchased product, the serial number or other unique identifier for the purchased product, and your order reference number. The following information must be included in the refund request: Full name Your address, postal and e-mail addresses Purchase date The order number for the original purchase The serial number or other unique identifier for the purchased product If there is more than one refund request, the refund will be issued in the order that the requests were received. The refund will be processed within 30 days from the date of your request, and once this is done, the program license will remain valid and unaffected by any future purchases. However, if you return the purchased product
