You can view Channels as they are released and not months after their original TV premiere. If there is any new channel coming up then it appears on the top of the list as soon as it's available. The channels are organized in smart categories that allow you to filter for available channels, nearest channels and filtered channels (over 24 hours). Advanced TV Tuner is a GUI built on top of a nice and reliable open source project called TVHeadend. So don't expect all the features of TVHeadend to be available. But if there is any TVGuide application out there then it's Advanced TV Tuner. Addons are third-party applications developed by other producers than the nLite developers, designed to be included in nLite as addons. They are specially customized so that they can be added to nLite in order to create a preinstall image of Windows to ease a user's work when reinstalling

Although founder and CEO Joe Chernov told a sellout crowd at a sold-out MetroWaters Grill that, "The most important event in the history of the Manulife family," it's not an event that will be remembered for a century or more. It's not that Manulife probably won't make a claim to fame any time soon, but the audience, which laughed and cheered through the entire four-hour-long soiree, seemed to want to forget it as soon as the festivities ended.
