Cambridge: CUP, 2005. x, 235p. Reviewed by Michael Hunt (University of Maryland) This volume, which chronicles an overview of the state of constitutional democracy in Europe, has much to offer students of European history, comparative politics, and constitutional law. Huntington, a specialist on comparative political philosophy, has accomplished the ambitious task of following a full spectrum of constitutional systems in Europe from the collapse of European empires in the early 1970s through to the end of the twentieth century. His chapter on Western Europe, which also looks at the first two decades of the twenty-first century, traces the transformation of post-war political thought and practice as the

political system of continental Europe has evolved through two stages of liberalism and then through a transition to a new version of socialism. Huntington contends that the European transformation of the 1990s was in the nature of a political resuscitation, not a political revolution. He argues that though this politics of restoration is less uniform than might be expected, and that it is more appropriate to call it a "restored constitutionality" instead of "constitutional democracy," there are common elements in all of the democratic transitions. For example, across the continent, a number of countries have identified a "need for constitutional legitimacy" and have responded with the adoption of a new constitution. Huntington also shows that the original stage of European constitutionalism, which he calls democratic, was "based on the primacy of the people and a separation of powers," which the new stage tends to eliminate. A conception of justice as fairness now dominates, if not replaces, the old conception of justice as justice from
